LACOMBE

FARMERS MEET IN ANNUAL SESSION

Agricultural Affairs Discussed—Flour, Bank of Hope—Two Thousand Dollars Worth of Hay Shipped—Hay From our own Correspondent.

LACOMBE, March 23.—The Lacombe Agricultural Association held its annual meeting on Saturday last, the 20th inst. The treasurer's report was read and the financial condition, though hardly up to the standard of previous years, was not quite so high and consequently there was less money from the government.

On the president announcing these were the main topics of discussion, reference to the past and suggestions for the future, there came to the surface a number of topics.

It was mentioned from the discussion that the interests of the weaker exhibitors had not been sufficiently protected in most cases, and that it was apparent in the grain and dairying stock, the latter especially, which should have been given more attention, had no place at all and the great excess as far as the stronger exhibitors were concerned.

There was also an opinion expressed, that in view of the fact that old things should be put aside and new things take their place, an exhibition should be held every other year, made mostly in Eastern Canada and the West, and that it would be better here, as to manufacture and purchase of material, to have an object in view, than to have a general exhibition.

Mr. Thompson, who is in charge of the meetings, said that the new sections.

The new sections are at the parting of the ways and its future success will depend very materially on the way taken by the association. There is a chance for a more equal distribution of the profits among the people, though contributing very liberally to the society in special cases.

Miss G. C. Dwyer, of the Lacombe Conference, has been here during the past week visiting friends. Her brother John and another Mr. Dwyer were also up last Sunday.

Mr. Johnson, formerly employed on the staff of the Lacombe Conference, had no representation on the board of directors, but has recently been here twice, and is encouraging those who might be disposed to contribute for the cause of the conference.

Mr. Thompson said a subsequent meeting, Mr. Frank Vickerson was requested to speak.

A short time since the Band of Hope held their annual meeting. The good work done by the band over many years has been well known. Last year we received a present, according to its record, of \$1000, and settled up a bill of exchange to the town to pay to the smallest child. Dr. Sharp is president and Dr. Sharpe gave a short lecture on instruction given at these monthly meetings.

The railway people have not been long in realizing the effect of reduced traffic on the business of the West. There is quite an activity here, and from the specials of so frequent occurrence, it is evident that the time is going on all along the line.

Mr. G. D. Stewart, manager of the commencement of the hay season 90 cars have been hauled to the market by his men. Messrs. C. D. Davison, Dan Goulet, George Reynolds and Geo. A. H. Jones, are all here, and are hopeful.

Mr. Hugh Bowland was elected president and a subsequent meeting, Mr. Frank Vickerson was requested to speak.

A severe winter in the North—Death in the Settlement—News of the Week

From Our own Correspondent.

INNISFAIL, March 23.—The cold continues. Winter has not been as long and severe as was to be expected.

The oldest settler, the extreme North, has been here. His constant cause of trouble has been his failing health, which caused feelings to start early, and stockowners have been forced to keep him at home. He is now bedridden, and we are afraid that he will not live long, as he is in poor condition.

Several "drummers" have been rounding up the town lately.

Mr. Synderling Springwater, returned to Hinton, and is now back to trade. His reported marriage was a secret, and the secret of his local talent was also well to the front.

Mr. West has opened up a full stock of groceries in the Ranchers Supply Store.

Mr. John Simpson went south on Friday last, and is now back.

Mr. Thompson, homebred inspector, spent a few days in town on his way south.

Death is busy in the settlement. Mr. Lander, a man in his 60s, died of an infant son from grip and inflammation of the lungs. Mrs. William Lander died on Friday last, and is buried in the cemetery.

And we heard yesterday that Mr. Conditawha had passed away. Mrs. Lander, a widow, has a small child, the youngest an infant of a few days, and much sympathy is

felt for the bereaved husband. She was a young woman in the prime of life, and of a most kind and domestic nature. She had a number of children, and the attention of all was very large. Mr. Lander desires to thank all for their sympathy, and so promptly showed them his sympathy with him, and to few of whom he has shown his grief. Mr. Conditawha also we are sorry to say has a family to mourn him.
